

Our Client

Headquartered in Srirangapatna, Karnataka, our client is a leading edible oil manufacturer having a state-of-the-art solvent extraction plant and edible oil refinery. They have been awarded as the highest processor of sunflower seedcake in India by Solvent Extractors' Association (SEA) continuously for the past 5 years.

Business Needs

- An integrated system converging financial process, inventory management, weighbridge integration & management and edible oil process monitoring & control
- A quality control system (QC) for both input and in-process oil extraction, based on which the line level managers can take quick and timely action
- An approval process where all key business processes are controlled and monitored which will result in cost cutting and right first time
- Control over Inventory cycles, valuation and ageing
- Timely MIS reports which can be analysed in real-time
- Better statutory and taxation compliance with improved financial reporting

Solutions Provided

- "Deal Management", which comprehensively covers the client's process of 'Blanket' purchase of raw materials and sale of crude oil through brokers or "Dealers"
- "Inbound Materials-QC", which covers the process of checking Inputs in various solvent extraction parameters and auto generation of 'Rebate' where, needed
- "Work-In Process QC", which covers the testing of oil against set parameters at various stages of Manufacturing. Real time QC reports are generated thereby for taking timely action
- "Sales Batch Tracking", covering the process of tracking multiple consignments of finished goods, being 'Consoled' in Client's own delivery vehicles
- "Weighbridge Integration", whereby weighbridge data is integrated and captured in financial system

Benefits Derived by Customer

- Through 'Deal' Management strict control over the daily purchase & Sales is achieved. monitoring goods receipts, outstanding deal quantity, commission to brokers etc. is facilitated in a flexible way
- QC Management, which was designed for solvent extraction, has helped in better checking and monitoring of raw materials while, providing more control over the work-In process of oil manufacturing
- Client has now a better control over inventory cycle, timely submission and compliance with statutory & taxation matters has been facilitated
