

Our Client

Our customer is a client centric Branded Insurance advisory enterprise with a clear focus on emerging markets formed out of the global vision of its experienced founding member having a collective experience of more than 60 years in India and International markets.

Business Needs

Develop and Implement web site with payment gateway integration for managing purchase of motor insurance policies online at UAE.

- Web site to communicate the insurance business offered by the client in UAE
- To purchase Motor insurance online from web site at UAE
- The web portal allows comparison between policies of the same or multiple insurance companies who are tied up with our clients in UAE
- The facility to buy the policy after

Solutions Provided

After understanding the requirements, we built a comprehensive Motor insurance portal providing comparison for the buyer, using open source technology. We delivered payment gateway integration solutions that offer different functionalities including mirroring the site's managing policy, payments, renewal template, automated feedback and nonpayment reminders.
